Greetings from Lloyd!

Large number of repeatedly visiting recruiters at our campus, not only help in building our confidence, but also to gauge the perception, as they are sure indicators of the reputation and popularity of the Programs and the Institution.

Degrees makes a student eligible, but not employable and if an Institute is not educating for employment, then it cannot sustain for long. Hence we ensure fundamental changes in teaching & learning methods, encompassing not only basic syllabus but also Strategic Interventions and inputs in having Foundation Courses to integrate students coming from a different vernacular background, mentoring, so skill training right from 1st year instead of graduating year, plus English language comprehension, competence and communication to make them comfortable and confident.

We remain grateful to all our recruiters for believing in us, year on year, and feel glad to invite you again this year!
