VISION

To provide basic and advanced animal research and training facili?es for the development of Pharmaceuticals, Cosmetics products & Nutraceuticals.

MISSION

To improve the quality of human life and to search for cure of the various ameliorating diseases, use of living animals has become vital in different fields of bio medical, clinical and basic research. While, we strive various alternatives such as *in-vitro* cell and tissue cultures, computer simulator software, *in-vivo* studies using animal models are sometimes necessary. So, our mission is to provide facilities for conducting animal study by strictly following the guidelines of Commitee for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA), Government of India.

ABOUT LAFE

Lloyd Animal Facility for Experimentaion (LAFE) at Lloyd Institute of Management & Technology (Pharm.) is established to fulfill the requirements of various investigators from different research institutions, industries and academic institutions across the Nation. We are always ready to meet the growing demand for high quality laboratory facilities in emergent field of Experimental Pharmacology and medicine. LAFE is registered with the commitee for the purpose of control and supervision of experiments on animals (CPCSEA), Ministry of Environment and Forests, Government of India (Registration Number: 1206/PO/Re/S/ 08/CPCSEA. Moreover, all the activities associated with animal experimentaions are performed as per the guidelines of CPCSEA, New Delhi as well as institutional guidelines under the supervision of Institutional Animal Ethics Commitee (IAEC). A well trained and qualified team ensures to carry out research and keep it in accordance with the standards established by the CPCSEA. LAFE beacons Industries, Research institutions, Scientists & Scholars for Collaborative as well as independent research in a cost effective manner for the betterment of mankind.

PHARMACOLOGICAL AND TOXICOLOGICAL SCREENING FACILITIES

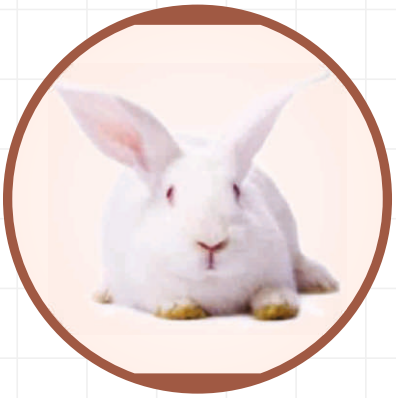
LAFE is currently operational in screening of following activities:

- Screening of Anti-inflammatory and Anti-pyretic Drugs
- Screening of Behavioral Parameters
- Screening of Analgesic Drugs
- Screening of Antiepileptic Drugs
- Screening of Pharmacokinetic Studies
- Screening of Anti-ulcer Drugs
- Screening of Anti-depressant Drugs
- Screening of Anti-diabetic Drugs
- Dermatological Studies
- Toxicity Studies

ANIMAL HOUSED IN THE FACILITY

Rats- Albino Wistar/ Sprague Dawley

Mice- Swiss Albino



Rabbits

INFRASTRUCTURAL FACILITIES

Our LAFE Includes:

- Quarantine Room
- Experiment Room
- Animal Store Room
- Wash Area
- Breeding Room
- Bedding & Feed Storage Room

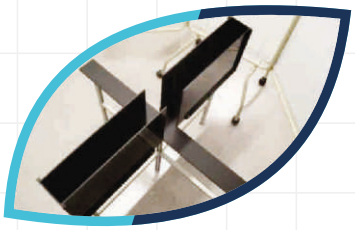
INSTRUMENTATION FACILITIES

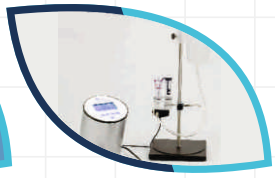
We have a dedicated pharmacological research lab with several instruments such as:

Actophotometer



Elevated Plus Maze

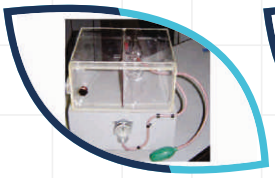
Rota Rod Apparatus



Plethysmograph

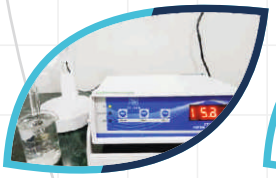
Eddy's Hot Plate

Analgesiometer



Histamine Chamber

Electroconvulsiometer



pH Meter

Microscope

Centrifuge

Deep Freezer

HPLC

WHY US?

- Complete Pharmacological Screening
- Helps in Developing Study Protocols
- Validated Results
- Data Interpretaion
- Well Trained Sta ffto Carry Out Experiments
- On Time Services
