## MENTORSHIP PROGRAM

Student mentoring is proven to improve student retention, boost job placement rates, and increase alumni engagement when tapping alumni as mentors. Each fresher is assigned a teacher as student mentor who is responsible for guiding the student. Counseling by mentors helps students in supportive and purposeful manner and assist them in the task of finding their own way forward. The students and parents can discuss their concerns with their assigned mentor. It is advised to the students to attend mentor mentee meetings and discuss all sorts of problems academic or personal with their mentor. This is in the interest of students.

The mentorship at Lloyd Institute is aimed at providing one to one care and all round guidance to students enrolled. Mentor of a student is just like a Teacher- Guardian to the students.

Every student will have a mentor appointed for him or her out of the faculty members of the Institute concerned.

As a student moves to College from School, he finds himself in need of guidance and counseling, fortunately, a mentor is there as a torch bearer.

1. Mentor is like a guardian who observes all activities of a student.
2. The basic aim of such monitoring is to foster all round development of the mentee.
3. A mentee may encounter a host of problems ranging from behavioral and attitudinal to academics and professional performance.
4. The mentor is there to take stock of all issues faced by a student and resolve them.

**To draw maximum benefit from Mentorship, there are certain things which a student will have to take care of:**

1. Do not hesitate to share your problem with the Mentor.
2. A mentor will meet at least once in fortnight with the mentee.
3. Mentor will keep sharing his observations about the progress of the mentee with his parents and it is the responsibility of the mentee to provide correct information about the phone number, e-mail etc. of his parents.
4. Mentor will submit a feedback report to the Principal.
